The Stadium School Library serves as its primary clientele the Stadium school students, staff, teachers, service providers, family and community, without regard for age, gender, religious or ethnic background, political affiliation, educational ability or economic status. During operating hours, the library is staffed by a professional librarian who holds a master’s degree in library and information science from a graduate school accredited by the American Library Association.

The Stadium School Library’s resources are chosen for the students, staff and faculty. Resources are chosen to support the Cranston Public School curriculum and to engage and excite students ages K – Grade 5. Resources include books, periodicals, DVD’s, digital books and online databases. As a member of the RILINK Consortium, the Stadium School Library further extends full access to its materials and services at no charge to the RILINK Consortium schools, libraries and communities.

In addition, the Library has one classroom sized facility, a projector, classroom tables, and several desktop computers. The facility is available for use by the school community per approval from the school Principal.

The Library has a part-time fixed schedule of classes on Monday, Wednesday, Thursday and Friday. Curriculum integration and collaboration are the lifeblood of the library. The Library also offers online databases, as well as Internet access. The library webpage and LibGuide (http://guides.rilinkschools.org/sharks) provide access to the on-line catalog, selected online databases through the RILINK Consortium, various curriculum resources and integrations, and numerous links to recommended Internet resources.
