Planet Report

Describe how your planet was named.

Draw the symbol for your planet.

Describe the temperature on your planet. Give specific numbers to tell how hot or cold the planet can be.

(name of your planet) has (number of moons) moons orbiting it.

Write the names of your planet’s moons. (If your planet has dozens of moons, like Jupiter or Saturn, then just list a few of the biggest ones.)

Planet Report

Can your planet be seen at night without a telescope?

Is your planet made of mostly gas or rock?

Does your planet have clouds?

Does your planet have rings around it?

Is your planet larger or smaller than Earth?

In the table below, list the names of any satellites or robots that have explored your planet close-up. Also, list the year when each arrived at your planet.
