Format for project

You will be researching a scientist. You will need to answer certain questions about this scientist.

You may make a web page, a power point, a posterboard, a kid’s book or a paper.

Whatever format you choose, it must be neat and colorful and it must include answers to all the questions on the attached page.

When you have completed your project, you will present it to the class.

Please write below your name, scientist and format for your project:
