Single Sign-On technology allowing teachers and students access everything they need with just one login!

Dear Parents,

We are pleased to share that we have adopted BWRSDLaunchPad (a ClassLink product, www.classlink.com), a single sign-on platform that will allow teachers and students to use one username and password to access everything they need. The software does not collect or share any personal student information, which is important to us.

Here is how to get help your child started:

For best practice, it is recommended that you have a separate account on your personal computer for your child.
For the best experience in using BWRSDLaunchPad, use the Google Chrome Browser. Students must be signed into the browser. Student’s email address is their username (lastname firstinitial last two digits of year of graduation—example: smithj24) with @bwrsd.org after it.

Please view the below YouTube video to learn how to sign into and sign out of the Chrome Browser.
https://www.youtube.com/watch?v=QNxOqhAHk5A

Once you have signed into the Chrome Browser, follow the below directions.

1. Go to this website: https://launchpad.classlink.com/bwrsd

2. Login with student username which is lastname firstinitial last two digits of year of graduation (smithj24). Password has been provided to students from their teachers

3. If you are using iReady, you must perform the following “fix” to access this software on your personal computer.

https://www.curriculumassociates.com/i-Ready-flashguide/0001.html

If you have questions, you can contact your school or email the ClassLink company directly: support@classlink.com.

Thank You!
