Science Yesterday and Today

Worth: 1 Test Grade

Due Date: ______________

Assignment:

You are to create an illustrated poster which contains three types of information about the Scientific Revolution.

1) Key contributors to the Scientific Revolution (at least 10).
2) Examples of their contributions/inventions at that time.
3) Modern machines that may have resulted from their work.

Along with the visual piece, you will also provide a written explanation of each figure’s work in the field of science and an explanation of how their work may have led to modern machines or modern science. This explanation should be approximately 1-2 paragraphs (per scientist) and typed. It may be incorporated into the poster’s design or submitted separately. Posters should be neat, colorful, and clearly labeled.

Example:

Galileo  Telescope  Hubble Space Telescope
